Future Trends	
<b>United States</b>	* Who is our future leadership - among mediators and trainers?
<b>Texas</b>	* New generation * Lack of value * Less clarity – who is the client? * Need openness to new procedures (e.g. collaborative law) * Address parallel trends: restorative justice
<b>TMTR</b>	* Job opportunities – implications for training * Where is conflict resolution (not just mediation) going? * More peer mediation? * Conflict coaching * Address needs of conflict resolution professionals
